

HASINTHA MEEGAHAWALA

Undergraduate DevOps Intern

hasintha.im@gmail.com | +94769006279 | 39/A, Dahamana,Balangoda

[LinkedIn_Hasintha](#) github.com/Hasintha00

SUMMARY

Detail-oriented and motivated DevOps intern with experience executing test plans and working with automated testing tools. Familiar with Agile methodologies and skilled at organizing and prioritizing tasks to support efficient QA processes. Experienced in documenting test cases and reports to enhance team communication and streamline testing cycles. Eager to learn and contribute to delivering high-quality software and improving user satisfaction through thorough testing and collaboration in dynamic teams.

EXPERIENCE

EVENT-MANAGEMENT-WEB

<https://github.com>

- Event Management web platform built with HTML, CSS, and Java.
- Allows users to browse and book events managed by the company.
- Features event listing, booking, and event management.
- Designed to provide a seamless online experience for booking and registration

SKILL SHARE PLATFORM

<https://github.com>

- The backend is built with Spring Boot, providing robust APIs and server-side logic, while the frontend uses React for a dynamic and responsive user interface.
- Users can publish educational content, share knowledge, and design tailored learning paths that fit their goals and schedules.
- The platform fosters interaction by enabling users to engage with each other's posts, exchange ideas, and build a learning community.
- Learners can organize their study time effectively by creating personalized plans, helping them stay on track and meet their educational objectives.

Expense-Tracker System

<https://github.com>

- Users can record their daily expenses and income entries, organizing them into categories like food, rent, salary, or other custom types.
- The app provides an overview showing total spending and earnings, helping users quickly understand their financial status.
- Provides detailed reports and summaries over selected periods, allowing users to track their financial health, identify spending patterns, and make informed budgeting decisions
